SUBJECT INDEX

A

Abdomen
  masses in, ultrasonographic evaluation 79 (June)
Accidents
  prevention, safety consciousness 119 (June)
Administration on Aging: See Government and geriatrics
Adrenals
  hypertension and 82 (Jan)
Aging: See Research; Teeth, oral signs
Alcoholism
  management in hospital continuing care unit 64 (Feb)
American Association of Retired Persons
  aims and benefits 121 (Nov)
Anemia
  etiology, diagnosis, treatment 53 (Dec)
  prevention during long-term care 101 (Feb)
Ankle
  joint replacement, total, alternative to arthrodesis 79 (Mar)
Anorexia
  cancer and 69 (June)
Appliances
  special, statistics on use 36 (Sept)
Arteries
  sclerosis, hypertension and 87 (Jan)
Arthritis: See Joints
Arthroplasty: See Joints, replacement
Autopsy
  data, bias due to age factors 78 (July)

B

Bile ducts
  cholangiopancreatography, diagnostic value 61 (July)
Biofeedback: See Sensory feedback
Blood pressure, high: See Hypertension
Blood sugar: See Diabetes
Blood vessels
  peripheral obstructive disease, long-term management 100 (Feb)
Brain: See also Stroke
  cell loss as factor in aging, research on 114 (Apr)
  changes, structural, effect on transfer of information, research on 128 (June)
  damage with seizures complicated by coma 112 (June)
  dementia, management in long-term care institution 104 (Feb)
  disease, headache and 103 (Sept)
  dominance, hemispheric, effect on function 111 (Nov)
  dysfunction, frontal lobe 81 (Dec)
  infarction, lacunar, diagnosis 71 (Feb)
  neurotransmitters, failure as cause of functional loss 105 (July)
  syndrome, acute, as cause of abnormal behavior 87 (June); crisis situations and 51 (June)
Breast
  cancer, therapeutic options 97 (June)
Bronchitis: See Lung
Burns
  prevention, reduction of fire hazards 106 (May)

C

Cancer
  anorexia and 69 (June)
  bone, replacement of tumor-destroyed joints 73 (Apr)
  bronchogenic, management 107 (June)
  esophageal, diagnostic problems 53 (Feb)
  gastrointestinal, diagnosis, staging, and follow-up 83 (Sept)
  mammary, therapeutic options 97 (June)
  metastatic to skin 39 (Dec)
Cardiovascular system: See also Heart, Stroke
  disease, complicating hypertension 87 (Jan); relation of mortality to aging 132 (Sept); reasons for mortality decline 97 (Mar)
Catheterization
  long-term urinary management 101 (Feb)
Center for Studies of Mental Health of the Aging: See Government and geriatrics
Cerebral: See Brain
Cholangiopancreatography
  endoscopic 61 (July)
Chronic illness
  discharge planning, role of hospital physician and paramedical personnel 63 (Feb)
Coalition of Older and Younger Adults (Gray Panthers)
  aims and benefits 121 (Nov)
Colon: See Intestines
Coma
  seizures and, diagnosis 112 (June)
Consciousness
  loss of, nonepileptic 95 (July)
Cor pulmonale
  pathophysiology and management 91 (Nov)
Credit discrimination: See Government and geriatrics
Crime
  vulnerability to, in aged 40 (Apr)
Crisis management
  psychiatric, by mobile team 51 (June)

D

Deafness: See Ear
Death
  assistance for dying patients and their families 117 (Mar)
  attitudes toward, effect on course of illness 87 (July)
  ethical problems 138 (Jan)
  imminent, meeting three major needs of patients 132 (June)
Decubitus ulcers
  management, long-term 102 (Feb)
Dementia: See Brain
Dental: See Teeth
Dependency
  conference, Anglo-American 112 (July)
Depression: See Psychiatry
Diabetes insipidus
  hypernatremia and 53 (Aug)
Diabetes mellitus
  control with diet and oral hypoglycemic agents 67 (Oct)
  diagnosis, management 51 (Oct); pitfalls 52 (Oct)
  eye manifestations 59 (Oct)
  health care instruction for patients 93 (Oct)
  insulin use 75 (Oct)
  management, long-term 100 (Feb)
  maturity-onset 140 (Nov)
Diet: See Nutrition
Discrimination
  Civil Rights Commission investigation 12 (Apr)
Diverticuli: See Intestines
Drugs: See also Research, drug
  antihypertensive 101 (Oct); long-term therapy 115 (Jan); pharmacology 99 (Jan)
  bronchodilators, cardiac arrhythmias related to fluorocarbon propellants 79 (Nov)
  hazards in long-term therapy 99 (Feb)
  hypoglycemic 67 (Oct)

E

Ear
  deafness, management in long-term institution 103 (Feb)
Education: See Health education, Medical education, Retirement, learning
Elbow
  arthroplasty, total, special problems 57 (Apr)
Electrolyte balance
  maintenance during long-term care

101 (Feb)
Electromyography: See Sensory feedback
Embolism: See also Heart
prevention during long-term care 100 (Feb)
Emphysema: See Lung
Endoscopy
cholangiopancreatography, diagnostic value 61 (July)
Epilepsy
seizures complicated by coma 112 (June)
Equipment: See Appliances
Esophagus: See also Gastrointestinal tract
carcinoma, diagnostic problems 53 (Feb)
Exercise
programs for retirees 132 (Jan); 122 (Feb)
Eye
care in long-term institutions 102 (Feb)
disturbances, visual, relation to neurologic disorders 109 (Mar)
signs and symptoms of diabetes 59 (Oct)

F

Falls
prevention in long-term care institution 103 (Feb)
Federal Council on the Aging: See Government and geriatrics
Fire
hazards, reduction 106 (May)
Food: See Nutrition
Foot
care for diabetics 93 (Oct)
ischemia, evaluation and treatment, in diabetics 83 (Oct)
Foot-drop, after stroke: See Sensory feedback
Franklin, Benjamin
last years 100 (July)

G

Gastrointestinal tract
cancer, diagnosis, staging, and follow-up 83 (Sept)
Gerovital® H3: See Research, drug
Government and geriatrics
age discrimination, Civil Rights Commission investigation 12 (Apr)
"bill of rights" for residents of intermediate care facilities 9 (Aug)
Center for Studies of Mental Health of the Aging, discussion 40 (Feb)
credit discrimination, illegality under Equal Credit Opportunity Act 14 (Sept)
discrimination, U.S. Department of Labor report 14 (June)
education for primary care physicians, Institute of Medicine report 16 (May)
Federal Council on the Aging, activities and recommendations 34 (Nov)
home and ambulatory services, proposed bill 15 (Jan)
home health care, policy reversal for profit-making organizations 15 (Feb); plan for improvement 43 (Oct)
House Select Committee on Aging, fact-finding and liaison role 38 (Mar)
influenza vaccination program, low demand from elderly 34 (June)
job opportunities, Senate committee recommendations 14 (Nov)
legal services, grants from Administration on Aging 30 (July)
legislation, 1976, review 14 (Dec)
Medicare and Medicaid merger, suggestion by National Council of Senior Citizens 16 (Feb)
Medicare, administrative costs 32 (Dec); criticism of President's plan 14 (Mar); effect on hospital admissions and care costs 79 (Feb); payments for health aids 36 (Sept); payments, new rules 19 (Nov); rules change for nursing in rural hospitals 16 (Sept)
mental health care 35 (Jan)
National Institutes of Health project on aging 128 (Mar)
National Institute on Aging, appointment of Dr. R. N. Butler 14 (June)
nursing home leave policy, Medicaid liberalization 16 (Jan)
Older Americans Act, renewal 15 (Feb)
programs, state and federal, suggestions by Federal Council on Aging 11 (June)
Senate committee system, proposed reorganization 14 (Dec)
Social Security, improvement in protection for Americans working abroad 14 (Oct); tax rate increase, President's request 10 (July)
social service programs that work 118 (Oct)
Veterans Administration, extended care services for elderly 28 (Aug); geriatric training 9 (Aug)
Gray Panthers: See Coalition of Older and Younger Adults
Gynecology
incontinence, stress 61 (June)

H

Hand
arthritic, reconstruction 89 (Mar)
Headache
types affecting elderly 103 (Sept)
Health education
cable television programs in New York 126 (Oct)
Heart: See also Cardiovascular system
arrhythmias, detection and treatment in chronic lung disease 69 (Nov); due to drug therapy for chronic lung disease 79 (Nov); mechanisms in chronic obstructive lung disease 47 (Nov); significance in acute respiratory failure 61 (Nov)
disease, complicating hypertension 87 (Jan); coronary, reasons for mortality decline 97 (Mar); loss of consciousness and 95 (July); relation of aging to mortality 132 (Sept)
emboli from, as cause of cerebral lacunar infarction 71 (Feb)
enlargement, hypertrophic subaortic stenosis 71 (July)
function and arrhythmias, in chronic lung disease 42 (Nov)
hypertension and 77 (Jan)
hypertrophy, left ventricular, in emphysema and chronic bronchitis 103 (Nov); right ventricular, cor pulmonale, pathophysiology and management 91 (Nov)
infarction, myocardial, initial manifestations 41 (July)
Hemiplegia: See Stroke
Hip
replacement arthroplasty 61 (Mar)
Home health care: See Government and geriatrics
Hospitals
care, long-term, preventive medicine and 99 (Feb)
care trends, effect of Medicare 79 (Feb)
discharge planning for chronically ill, role of physician and paramedical personnel 63 (Feb)
rural, nursing rules changes under Medicare 16 (Sept)
teaching, training of primary care physicians 16 (May)
House Select Committee on Aging: See Government and geriatrics
Hyperglycemia, hypoglycemia: See Diabetes
Hypernatremia, hyponatremia: See Kidney, sodium excretion
Hypertension
complications, cardiovascular 87 (Jan)
diagnosis 77 (Jan)
drug therapy, long-term 115 (Jan); pharmacology of antihypertensive agents 99 (Jan)
epidemiology 48 (Jan)
essential, early pathophysiology 59 (Jan)
kidney damage and 71 (Aug)
management, emergency and urgency 123 (Jan)
perspectives, 1976 46 (Jan)
reasons for, treatment for 101 (Oct)

I

Incontinence: See Urine
Infection
postoperative, prevention in joint replacement surgery 81 (Apr)
Influenza vaccination: See Government and geriatrics
Institute of Medicine: See Government and geriatrics
Insulin: See Diabetes mellitus
Intermediate care: See Nursing homes
Intestines: See also Gastrointestinal tract
diverticulosis of colon, effect of diet 89 (Feb)
Ischemia, lower extremity: See Foot

J

Joints: See also Ankle, Elbow, Hand, Hip, Knee, Shoulder, Wrist
replacement 46 (Mar); prevention of wound sepsis 81 (Apr)
replacement, total, achievements and expectations 45 (Mar); 47 (Apr); biomechanics 48 (Mar)
tumor-destroyed, replacement 73 (Apr)

K

Kidney
- disease, diagnosis and treatment 34 (Aug); 45 (Sept)
- failure, acute, diagnostic possibilities 92 (Aug); chronic, conservative management 46 (Sept); end-stage, hemodialysis for patients over 50 55 (Sept)
- hypertension and 77 (Jan); target organ 71 (Aug)
- nephrotic syndrome, etiology, diagnosis, and treatment 39 (Aug)
- sodium excretion, hypernatremia and hyponatremia 53 (Aug)
- transplants in patients over 50 65 (Sept)

Knee
- arthroplasty, total, indications 71 (Mar)

L

Language: See Speech

Lipofuscin
- origin research, possible clue to aging 128 (May)

Lower extremity
- ischemia in diabetics, evaluation and treatment 83 (Oct)

Lung
- bronchitis, chronic, emphysema and, outpatient management 77 (Sept)
- carcinoma, bronchogenic, management 107 (June)
- disease, chronic, cardiac arrhythmias related to drug therapy 79 (Nov); detection and treatment of cardiac arrhythmias 69 (Nov); effect on cardiac function and arrhythmias 42 (Nov)
- disease, chronic obstructive, cor pulmonale and 91 (Nov); mechanisms of cardiac arrhythmias 47 (Nov)
- emphysema and chronic bronchitis, left ventricular failure and 103 (Nov)
- failure, acute, significance of cardiac arrhythmias 61 (Nov)

M

Malnutrition: See Nutrition

Medicaid, Medicare: See Government and geriatrics

Medical education
- curriculum changes in geriatrics 111 (Sept)
- geriatrics program at University of Glasgow 102 (Aug)
- primary care training in teaching hospitals 16 (May)
- profile of gerontology 115 (Oct)
- teaching, deficiencies in geriatrics 36 (July); medical director's role in nursing homes 91 (Dec)

Mental health: See Psychiatry

Mouth
- care in long-term institution 102

Myocardial infarction: See Heart

N

National Council of Senior Citizens
- aims and benefits 121 (Nov)

National Institute on Aging: See Government and geriatrics

National Institutes of Health: See Government and geriatrics

Nephrotic syndrome: See Kidney

Neurology
- brain dominance, hemispheric, effect on function 111 (Nov)
- disorders related to visual disturbances 109 (Mar)
- frontal lobe dysfunction, causes, symptoms 81 (Dec)

Nurses
- role in rehabilitation facility 77 (May)

Nursing homes
- choice of and adjustment to 115 (May)
- intermediate care, "bill of rights" for residents 9 (Aug)
- leave policy, Medicaid liberalization 15 (Jan)
- problems, discussion by Anglo-American conference 112 (July)
- role of medical director 91 (Dec)
- selection, matching to patient's needs 100 (Apr)

Nutrition
- calorie restriction, experimental, effect on aging 141 (Oct)
- diet, in diabetes control 67 (Oct); low-residue, as factor in diverticulosis 89 (Feb)
- faulty, depression and 73 (June)
- food choices and intake, influential factors 89 (Sept)

O

Occupational therapy
- rehabilitation value 99 (May)

P

Pain
- control in dying patient 132 (June)

Pancreas: See also Diabetes
- cholangiopancreatography, diagnostic value 61 (July)

Paraplegia
- hematoma, spinal epidural, and 97 (Sept)

Parkinson's disease
- management for maximum benefit 89 (Apr)

Pharmacology: See Drugs

Physical therapy
- objectives, final goals 91 (May)

Protein
- metabolism, age-related changes, effect on rehabilitation 52 (May)

Psychiatry
- behavior, abnormal, medical causes 87 (June)
- Center for Studies of Mental Health of the Aging, discussion 40 (Feb)
- crisis management by mobile team 51 (June)
- death, approach to, meeting three major needs of patients 132 (June); reactions to, influence on course of illness 97 (July)
- depression, dependency and, management in continuing care unit 63 (Feb); malnutrition and, treatment 73 (June)
- deterioration, prevention in long-term care institution 108 (Feb)
- factors in rehabilitation 73 (Dec)
- hypertension, psychosocial aspects 59 (Jan)
- memory and behavior: See Brain, frontal lobe dysfunction
- mental health care for the elderly, American issues 35 (Jan)
- physician-patient relationship 73 (Dec)
- rehabilitation problems 68 (May)

Pulmonary: See Lung

Q

Quality of life
- aging in 2025, forecasts by four experts 110 (Feb)
- service programs, workable 118 (Oct)

R

Rehabilitation
- dental, problems in elderly 103 (May)
- nurses and, role expansion 77 (May)
- occupational therapy, evaluation 99 (May)
- of psychiatric patients 73 (Dec)
- potential, effect of age-related changes in protein metabolism 52 (May)
- psychologic factors 68 (May)
- speech and language restoration 83 (May)
- stroke, potential for ambulation and self-care 61 (May); see also Sensory feedback

Renal: See Kidney

Research
- aging rate, influential factors 128 (Mar)
- brain, cell loss as factor in aging 114 (Apr); neurotransmitter failure, cause of functional loss 105 (July); structural changes, information transfer and 128 (June)
- diabetes, evidence on relationship to accelerated aging 140 (Nov)
- drug, Gerovital® H3, antidepressant and monoamine oxidase inhibitor 95 (Dec)
- life span extension, control of aging and degenerative disease 128 (Aug)
- lipofuscin, possible clue to aging process 128 (May)
- mortality, cardiovascular, reasons for increase with aging 132 (Sept)
- nutrition experiments, effect of calorie restriction on aging 141 (Oct)
- theories on aging 135 (Feb)

Respiratory tract: See Lung

Retirement
- exercise program 132 (Jan); 122 (Feb)
- illness, terminal, helping dying patients and their families 117 (Mar)
- learning, lifelong, educational opportunities 114 (Aug); guidance for return to classroom 116 (Sept)
- organizations, benefits from 121 (Nov)
- policy evaluation by Ford and Burden foundations 38 (May)
- safety consciousness, measures for averting accidents 119 (June)

S

Safety consciousness
- raising in elderly 119 (June)

Seizures
generalized, coma and, diagnosis 112 (June)
Sensory feedback
stroke therapy 43 (June); for foot-drop 47 (Dec)
Shoulder
arthroplasty, total, experimental data 64 (Apr)
Skin
cancer, metastatic 39 (Dec)
Social Security: See Government and geriatrics
Social service: See Government and geriatrics
Sodium balance: See Kidney
Speech
akinesia: See Brain, frontal lobe dysfunction
restoration, role of speech pathologist 83 (May)
Spinal cord
hematoma, spontaneous epidural, diagnosis 97 (Sept)
Spine
spondylosis, cervical, with loss of positional and vibratory sense 51 (July)
Spondylosis: See Spine
Stomach: See also Gastrointestinal tract
retention due to congenital pyloric mucosal diaphragm, diagnosis 110 (Oct)
Stroke
eye manifestations 109 (Mar)
mortality decline, reasons for 97 (Mar)
rehabilitation, physical therapy, objectives and final goals 91 (May); potential for ambulation and self-care 61 (May)
therapy: See Sensory feedback
Syncope
nonepileptic 95 (July)

T

Teaching of geriatric medicine: See Medical education
Teeth
care, problems in the elderly 103 (May)
oral signs of aging, clinical significance 63 (Dec)
Television
cable, as medium for health education 126 (Oct)
Transplants
kidney, in patients over 50 65 (Sept)
Twenty-first century
quality of life, forecasts by four experts 110 (Feb)

U

Ultrasonography
evaluation of abdominal masses 79 (June)
University of Glasgow
geriatric teaching program 102 (Aug)
Urine
incontinence, stress, in women 60 (June)

V

Veterans Administration: See Government and geriatrics

W

Wrist
arthroplasty, total 48 (Apr)
